### 1,069 Educated in Prevention and Education Trainings

On the survey day, 1,069 individuals in communities across Indiana attended 64 training sessions provided by local domestic violence programs, gaining much needed information on domestic violence prevention and early intervention.

### 255 Unmet Requests for Services in One Day, of Which 72% Were for Housing

Many programs reported a critical shortage of funds and staff to assist victims in need of services. In addition to housing and emergency shelter, programs reported that of the service requests they could not meet, Rental Assistance/Utilities and Cash Assistance/Financial Assistance services were most in demand.

### Cause of Unmet Requests for Help

Across Indiana, 59 individual services at local programs were reduced or eliminated in the past year.

- 24% of programs reported government funding cuts.
- 18% of programs reported reductions in private funding.
- 13% of programs reported fewer individual donors.
- 4% of programs reported staffing cuts or reductions.

Across Indiana, 37 staff positions were eliminated in the past year and most (89%) of these positions were direct services such as shelter or legal advocates, so there were fewer advocates to answer calls for help.

“Since early Spring of this year, our program has had to refer victims to other programs for emergency shelter. We have had every bed and every cot in use. Our CEO of 23 years told us, ‘This is the first time in my 23 years leading the agency we have had to turn away so many victims.’ I worry every night, concerned about the safety of the victims we could not shelter.”
