## 226 Attended Prevention and Education Trainings

On the survey day, **226** individuals in communities across Arizona attended **30** training sessions provided by local domestic violence programs, gaining much-needed information on domestic violence prevention and early intervention.

## 211 Unmet Requests for Services in One Day, of which 92% (194) were for Housing

When there are not enough resources, survivors’ requests for a safe place to live, legal representation, counseling, and other supportive services go tragically unmet—countless times in a single day.

Victims made **211** requests for services—including emergency shelter, housing, transportation, childcare, legal representation, and more—that could not be provided because programs did not have the resources to provide these services.

Across Arizona, **22.5** staff positions were eliminated in the past year. Most (**64%**) of these positions were for direct services such as shelter staff or legal advocates. This means there were fewer advocates to answer calls for help or provide needed services.

✦ An advocate said, “One of our residents made huge strides on her goals, including ending her homelessness. She was able to meet with a support worker and get needed resources for housing, parenting support, employment, and legal assistance. She has several job interviews and is hopeful she can begin employment once she obtains childcare.”
