## 75 UNMET REQUESTS FOR SERVICES

Due to a lack of resources, many programs in Florida reported a critical shortage of funds and staff to assist victims in need of services, such as housing, childcare, mental health and substance abuse counseling, and legal representation.

### NOT ENOUGH STAFF

Programs reported that lack of staffing was a reason that they could not meet victims’ requests for services. 34% of programs have fewer than 20 paid staff, and 3% of those programs have fewer than 10 paid staff.

## 888 HOTLINE CALLS ANSWERED

Domestic violence hotlines are a life line for victims in danger. Domestic violence program staff in Florida answered more than 37 hotline calls every hour, providing support, information, safety planning, and resources.

## 769 PEOPLE TRAINED

Individuals across Florida attended community education and trainings, gaining much needed information on prevention and early intervention.

I met with a client at the sheriff’s office who had been badly beaten. It was not safe for her to come to our office, so I met her there for crisis counseling, needs assessment, and assistance filing for relocation benefits.

Whether we’re working with a large family or a single woman, it’s hard to find transitional housing and transportation. The lack of onsite childcare as well as a long waiting list in the community for childcare is another factor that makes it difficult for women to move on.
