It is important to review your credit history. Having a good understanding of your credit will be important if you plan to leave an abusive relationship and build your own financial foundation.

**Q. Why is good credit important?**
A. Good credit allows you to obtain loans and credit cards with the best interest rates. Having a good credit history is also important if you want to rent an apartment or get insurance coverage, a cell phone, job, mortgage and more. Landlords, insurance companies and employers — not just banks — can check your credit report.

**Q. How do I know if I have good credit?**
A. Reviewing your credit report is the best way to assess your credit. Your credit report shows whether or not you’ve paid your credit card bills and loans on time, the amount of money you owe your creditors and whether you have loans that haven’t been paid.

**Q. Where can I get help to improve my credit?**
A. Working with a reputable nonprofit community-based credit counseling organization that provides one-on-one assistance can help you improve your credit. Watch out for organizations that charge big upfront fees, make unrealistic promises and lack accreditation credentials.
