ESG: The Facts

Administration

– For homeless and at-risk households
– 60% of grant (or remaining amount used for FY2010 shelter activities) must be used for prevention/rapid re-housing
– 7.5% of grant can be used for admin expenses (formerly 5%)
ESG: The Facts

Programs
- Must participate in coordinated assessment
- Participants must receive case management services

The System
- Must coordinate with CoC
- Must participate in HMIS
- Must target prevention to those below 30% of AMI
ESG: Best Practice

Incorporate a permanent housing/rapid re-housing focus by:

– Educating and training staff, board members, funders
– Developing resources for short-term financial assistance

Target prevention funds using data
CoC: The Facts

• Replaces three former programs: SRO/Mod. Rehab, Shelter Plus Care, and Supportive Housing Program
• Changes in terminology and definitions: collaborative applicants, Unified Funding Agencies (UFA)
• 10% can be used for persons homeless under other definitions
• New system-wide match requirements
CoC: The Facts, cont’d

Programs
– Can no longer require persons to participate in disability related services (like substance abuse service)

The System
Must develop:
– Prioritization standards
– CoC board that includes a homeless or formerly homeless person; subrecipients must also have consumers on their board
– System-wide performance goals
– Coordinated assessment process
Opportunity to be High Performing Community
CoC: Best Practice

• Measure program performance
• Retool and adjust programs to better meet HEARTH outcomes
• Use consumers in meaningful ways
• Connect and collaborate with the homeless assistance system on governance and data issues
