A woman fled from her husband, who was very lethal, and came into shelter today. He did not let her take her purse. She tried to get new identification cards and a drivers license but could not since she did not have any identification documents with her.

Clients live up to 50 miles from our shelter. A woman called today, needing to come to shelter but this was not a viable option because she needed to stay in the small town she lives in so her children could attend their school and she could keep her job. We only have enough funding to put her and her children in a motel for 3 days. This will provide for her immediate safety tonight, but won’t allow her time to really plan for a new start.
