Organization	<p>Jane Doe Inc., The Massachusetts Coalition Against Sexual Assault and Domestic Violence, brings together organizations and people committed to ending domestic violence and sexual assault. We create social change by addressing the root causes of this violence, and promote justice, safety and healing for survivors. JDI advocates for responsive public policy, promotes collaboration, raises public awareness, and supports our member organizations to provide comprehensive prevention and intervention services. We are guided by the voices of survivors.</p> <p>Jane Doe Inc., (JDI) is a state-wide membership advocacy organization dedicated to preventing and abolishing domestic violence, sexual assault and stalking. We operate from a social justice framework that recognizes the intersections of oppression and the critical roles of organizing and advocacy in transforming social norms. JDI was formed by the 1998 merger of the MA Coalition of Battered Women Service Groups and the MA Coalition Against Sexual Assault. Our membership is comprised of nearly sixty community-based domestic violence, sexual assault and/or dual programs. We work very closely with our member programs in order to understand the impact that domestic and sexual violence has on victims and local communities. We support their capacity to be responsive and to integrate best practices of the field. As the statewide resource center for sexual assault and domestic violence, Jane Doe Inc. provides technical assistance, training, and information and facilitates communication among the membership in many venues. We recognize that coalitions are most effective when they are member centric and victim focused, so that the experiences of survivors are reflected through communications from our members and that understanding drives our prevention, program and policy advocacy actions.</p>

Organization	NCCADV leads the state's movement to end domestic violence and to enhance work with survivors through collaborations, innovative trainings, prevention, technical assistance, state policy development and legal advocacy.
Mission & Vision:	
Staff Size: 24	We believe that domestic violence will end through social change - the elimination of the institutional, cultural, and individual oppressions that contribute to domestic violence.
	<p>We believe that domestic violence is a pattern of domination in which perpetrators intentionally choose to cause fear, injury, and/or pain in order to gain and maintain power and control over their partners. In addition to physical violence, abuse can be sexual, emotional, economic, and can include stalking. We know that most domestic violence is committed by men and is one form of violence against women. We believe that domestic violence is absolutely unacceptable and that perpetrators should be held accountable.</p> <p>We believe that patriarchy, gender inequality, and all oppressions play a central role at the individual, institutional, and cultural levels in creating and maintaining an environment which accepts domestic violence. We believe it is vital to understand and advocate for the elimination of all forms of oppression, including, but not limited to: sexism, racism, and homophobia. We believe it is critical to serve all domestic violence survivors, regardless of race, age, class and ethnic group, sexual orientation, gender identity, mental and physical abilities, religious and spiritual beliefs, and immigration status. We know oppression comes in all forms and leads to secondary issues for survivors; we will strive to serve all survivors of domestic violence and their respective needs.</p> <p>We believe that through the power of our shared experiences and collective voice, we can work together to create individual, institutional, and cultural change. We will work intentionally and actively to create safe spaces for survivors of domestic violence. We believe the voice and experience of survivors must be the foundation of our work, and that the domestic violence movement can change society.</p>

Organization Mission & Vision Statement:	<p>Mission: The Pennsylvania Coalition Against Domestic Violence (PCADV) is a statewide collaborative membership organization committed to ending intimate partner violence and all forms of violence and oppression.</p> <p>Vision: We envision a Commonwealth where, collectively, we create a community that supports all Pennsylvanians in the human right to live healthy, stable, and rewarding lives free from intimate partner violence and all forms of violence and oppression.</p>
Staff Size: 43	<p>About PCADV: Founded in 1976, the Pennsylvania Coalition Against Domestic Violence (PCADV) is the oldest statewide domestic violence coalition in the nation. Each year, a network of 59 community-based programs provides free and confidential services to nearly 90,000 victims of domestic violence and their children in all 67 counties of the commonwealth. The local programs and Coalition form interconnecting links in a chain of services and support to help victims and survivors find safety, obtain justice, and build lives free of abuse.</p> <p>Core Values Statement: At PCADV, we embrace diversity and its collective strength in creating a community where systems support ALL so everyone can thrive. Led by this principle and to fulfill our mission of ending all forms of violence, we simultaneously strive to challenge and eliminate all types of systemic racism, oppression, and injustice.</p> <p>Domestic violence flourishes in isolation. This isolation is often accompanied by unequal access to systems and resources, further disempowering individuals and compromising their safety and wellbeing. We confront these systems, which perpetuate oppression by granting power to the few while minimizing and alienating the many.</p> <p>We commit to holding ourselves accountable within the systems that perpetuate oppression by providing ongoing education and advocacy. These values are the compass for our work and pervade our priorities: prevention, intervention, and change.</p>

Overview of Organization:	<p>The Virginia Sexual and Domestic Violence Action Alliance is a diverse group of individuals and organizations that believe that ALL people have the right to a life free of violence. We recognize that sexual and domestic violence are linked to other forms of oppression, which disproportionately affect women, children and other marginalized people, harming individuals, family and societies as a whole. We will use our diverse and collective voice to create a Virginia free from sexual and domestic violence—inspiring others to join and support values of equality, respect and shared power.</p> <p>The work to create a world where relationships, families, and communities are healthy, equitable, and joyful requires us to think and work broadly to address the underlying factors that drive oppression and violence. We will work to build a more equitable world by centering gender justice, racial justice, reproductive justice, and economic justice.</p>
